INGLIZ TILI DARSALARIDA O'QISH MAHORATINI RIVOJLANTIRISHDA KOMMUNIKATIV MASHQLARDAN FOYDALANISH TEKNOLOGIYASI

Annotatsiya

Mazkur maqolada ingliz tilida matnlarni o'qishga o'rgatishda kommunikativ mashqlardan foydalanish texnologiyasiga bag'ishlangan bo'lib, bunda talabalar turli janrdagi matnlar bilan ishlashda o'qish mahoratini rivojlanirishi yoritib berilgan. Ushbu texnologiyaga muvofiq matnga takroriy murojaat qilish nafaqat o'qish qobiliyatini rivojlaniradi, balki uni ma'nova darajasida tushunishga imkon beradi.

Kalit so'zlar: muloqot, o'qish, ko'nikma, qobilyat, kommunikativ mashqlar, texnologiya, semantik tanlov, mazmunli identifikasiya.

Kirish. Muloqo t– odamlar o'rtaida hamkorlik faoliyati ehtiyojidan yuzaga keladigan va axborot almashinuvni, o'zaro ta'sirning yagona yo'lini ishlab chiqish, boshqa odamni idrok qilish va tushunishdan iborat bo'lgan aloqalarni o'rnatish va rivojlatirishning murakkab, keng qamrovli jarayonidir.

Muloqot - bu odamlar o'rtaida aloqalarni o'rnatish jarayoni va natijasi bo'lib, u juda ko'p funktsiyalarni bajaradi. Shuningdek insonning jamiyatdagi hayoti davomida ko'zlagan maqsadlari va u orqali hal qiladigan vazifalaridir.

Adabiyotlar tahlili va metodlar. Muloqot bir qator funktsiyalarni bajaradi:

-koordinatsion (hamkorlik faoliyatini tashkil etishda harakatlarni o'zaro yo'naltirish va muvofiqlashtirish yordam beradi):

- amotiv –sherikda zarur hissiyoti kechinmalarini uyg'otish (<hislar almashinuvi>), shuningdek, uning yordamida shaxsiy kechimma va holatlarni o'zgartirish;

- munosabatlarni o'rnatish – individ mavjudligi kutilayotgan jamiyatdagi rolli, darajali, ish bo'yicha, shaxslararo va boshqa aloqalari tizimlarida o'z o'rnnini anglash va qayd etish;

Shu bilan birga muloqot orqali bajariladigan funktsiyalar retseptiv faoliyatga, ya'ni o'qish va tinglashga ham tegishlidir. Ushbu holatda inson o'z sheringiga emas, balki

kitob, maqola, ma'lumotnomma orqali ta'sir qiladi va shu bilan uning ehtiyojlarini qondirishga harakat qiladi.

- yangi narsalarni o'rganish; ma'lumotlarni aniqlashtirish; qo'shimcha ma'lumot olish; qiziqtirgan masalani batapsil o'rganish; umumiyl tushunchaga ega bo'lish; vaqtini foydali o'tkazish; dam olish; vaqtini o'tkazishdir.

O'qish jarayonida quyidagi ko'nikma va malakalar shakllanadi:

- 1) leksik o'qish ko'nikmalari
 - 2) grammatik o'qish qobiliyatları;
 - 3) pertseptiv o'qish malakalari (o'qish texnikasi);
 - 4) qiziqishlarga qarab material tanlash qobiliyatı istak va ehtiyojlar;
 - 5) tez o'qish qobiliyatı;
 - 6) taxmin qilish qobiliyatı;
 - 7) bashorat qilish qobiliyatı;
 - 8) lug'at va ma'lumotnomma adabiyotidan foydalanish qobiliyatı;
 - 9) asosiy g'oya va ma'noni tushunish qobiliyatı;
 - 10) matnning umumiy mazmunini tushunish qobiliyatı;
 - 11) matndan asosiy narsani tanlash qobiliyatı;
- Bu ko'nikmalar turli matnlar janrlarini o'qish jarayonida rivojlanadi (badiiy, publisistik, ilmiy,

ma'lumotnomha va boshqalar). O'qishni bilish degani nafaqat o'qishni balki, nutq birliklarini vizual ravishda tanib olish demakdir. Bu tushuncha qanday bo'lishini oldindan bilish qobiliyatiga shuningdek matnning ma'nosini va individual grammatik tuzilmalariga asoslanadi. Semantik taxmin qilish, ya'ni kontekstga asoslangan notanish so'zni tushunish qobiliyati bilan bir xil darajada muhim rol o'ynaydi. O'qishni biladigan talaba nafaqat hamma narsani o'zlashtirishi kerak shuningdek o'qish turlari, bir turdan ikkinchisiga o'tish oson berilgan matndan ma'lumot olish maqsadining o'zgarishiga bog'liq. Maqsadni belgilashga asoslanib, ular ko'rish (umumiy tushuncha bilan o'qish, batafsil ma'lumot bermasdan), kirish (matndan asosiy ma'lumotlarni olish), o'rganish (matndagi barcha ma'lumotlarni eng to'liq va aniq tushunish), o'rtasida farqlanadi. Tushunish va qidirish o'qish (matndagi kerakli faktlarni, xususiyatlarni, sanalarni, ko'rsatmalarini tezda topish va boshqalar). Ushbu turdag'i o'qish uchun tanlangan material mutlaqo boshqachadir. U talabalarning kommunikativ va kognitiv qiziqishlari va ehtiyojlariga mos kelishi hamda har bir yosh guruhi uchun qiziqarli va mos ma'lumotlarni o'z ichiga olishi kerak. Shunga ko'ra ushbu matnlar bilan ishslash metodologiyasi ham boshqacha bo'lishi kerak. O'z amaliyotida o'qituvchi, qoida tariqasida, maqsadlar, sharoit, tayyorgarlik va boshqa omillarga qarab an'anaviy va innovatsion texnologiyalar va usullarni birlashtiradi. O'qish darslarimizda biz talabalarni nafaqat ishslashga o'rgatishga yordam beradigan kommunikativ mashqlar balki har xil turdag'i matnlar beramiz bu esa ushbu mahoratni rivojlantirish va takomillashtirishga ham imkon beradi.

Mazkur mashqlar rus olimi, fan arbobi Efim Izrailevich Passov tomonidan ishlab chiqilgan. Biz ushbu mashqlar bilan qanday ishslashni bir qator tadbirlar va o'quv darslari misoldi ko'rsatmoqchimiz. Masalan: harbiy xizmatdan foydalanish komponenti "Unity in Diversity" matni Dars ekspozitsiya bilan boshlanadi, unda o'qituvchi "Unity in Diversity" tushunchasi nimani anglatishi haqida subbatni boshlaydi. Talabalar zarur bo'lgan asosiy bilimlarga ega matnlar bilan ishslash va dars mavzusini mustaqil shakllantirishga undaydi.

Ekspozitsiya misoli: Every country has its own outstanding people who deserve to be admired and respected for their achievements and heroic deeds.

- What people is our country proud of?
- What are they famous for?
- What outstanding people of Great Britain can you name?
- What did they do for their country?
- There is a popular motto in our international society called "Unity in Diversity". It is based on understanding that enriches our human interactions and helps us to understand each other better.

Ekspozitsiyadan so'ng darhol talabalarga dars mavzusini aniqlashtirishga yordam beradigan dastlabki savol paydo bo'ladi va bu bilan ularda bashorat qilish qobiliyatini rivojlantiramiz.

Masalan:

1. Read the short factual texts about great people of Russian and Great Britain and say if there are any you have already mentioned. Suggest your own variant of the topic of our lesson.

a) Douglas Bader was a Royal Air Force (RAF) flying ace during the Second World War. Before the war, he crashed and lost his legs. But later he was accepted as a pilot again. He had 22 aerial victories.

b) Pavel Nakhimov is one of the most famous admirals in Russian naval history. His finest hour came during the siege of Sevastopol, where he and Admiral V.A.Kornilov organized the defense of the city and the port. He was killed in action before the siege ended.

c) Benjamin Disraeli was a British politician who twice served as Prime Minister. He played a certain role in the creation of the modern Conservative party, one of the two main parties in Great Britain.

d) Horatio Nelson was a British flag officer in the Royal Navy. He was famous for his inspirational leadership, superb grasp of strategy and unconventional tactics, which resulted in a number of decisive naval victories during the Napoleonic Wars.

2. Who are the people described in these texts?

- a) Famous scientists
- b) Fictional characters
- c) Famous writers
- d) Political and military leaders

Keyinchalik matnlar bilan ishslashda to'g'ridan-to'g'ri kommunikativ mashqlardan foydalanishni boshlaydi. Har bir mashq o'qituvchi tomonidan yozma yoki og'zaki bayonet sifatida tushunilishi kerak bo'lgan kommunikativ vaziyatdan boshlanadi. Muayyan vaziyatda va olingan kommunikativ vazifaga muvofiq talabalarning nutq faolligini nazorat qilish usuli bo'lib xizmat qiladi. Muloqat o'rnatish talabalarning o'quv va kognitiv faoliyati bilan bog'liq aqliy, hissiy, intellektual va boshqa jarayonlarni rag'batlantiradi va tartibga soladi.

Masalan: Read the texts once again to find the facts that prove that there are similarities between these people.

Keyin uch guruh mashqlari bajariladi.

Birinchi guruh mazmunli identifikasiya deb ataladi.

Bu mashqlar o'qituvchi tomonidan taklif qilingan ma'no jihatdan gaplarga o'xshash ma'lumotlarning mazmunini talaba o'qigani bilan o'zaro bog'lashi uchun xizmat qiladi. Quyidagilar shunga o'xshash mashqlar variantlari bo'lishi mumkin.

O'qigan matndan mazmunan ma'lumotlarga o'xshash gaplarni toping;

Berilgan jumlalarning matn bilan mosligini aniqlash;

Matndan gaplarni kengaytiruvchi jumlalarni toping;

Masalan: ushbu turdag'i mashqlardan birini quyidagicha ko'rsatish mumkin.

In the short factual texts, find sentences, which are similar to these ones.

- a) He focused on the relations with foreign countries.
- b) During one of the battles his leg and hand were injured.
- c) His military talents helped him to win in many naval battles.
- d) He tried to change some land laws.
- e) He had his legs amputated before the war but managed to become a pilot again.

Mashqlarning ikkinchi guruh mazmunli izlash deb ataladi.

Mazkur mashqlar mantiqiy tushunish va ma'lumot olish mexanizmni ishlab chiqishga qaratilgan. Bu kabi vazifalar turini quyidagicha shakllantirish mumkin: sabablarini toping.....; tasdiqlovchi gaplarni toping.....; javoblarni matndan toping.....va hokazo; Ushbu guruhdag'i namunaviy mashqlardan biri quyidagi vazifa bo'lishi mumkin.

Uchinchi guruh mashqlari semantik tanlov deb ataladi.

Ushbu mashqlarning maqsadi nafaqat mantiqiy tushunchani, balki semantik taxminlarni ham rivojlantirishi. Bunday qilish orqali mashqlarda talaba nafaqat to'g'ri javobni tanlashi, balki uni tasdiqlay olish ham kerak. Bunday mashqlar uchun quyidagi variantlar mumkin: semantikani tiklash; ma'lumot; matnga izoh yozish; taklif qilinganlardan ma'nosini to'g'ri bo'lgan javobni tanlang va hokazo;

Bu bilan ishslashning yakuniy bosqichi muhim emas balki, matnlar, ularning maqsadi, talabalarni o'zlarining nutqlarini ifoda etishga undashdir. Nutqni rag'batlantiradigan vazifalarga misollar bo'lishi mumkin.

1. Find pairs of people who have something in common and complete the chart with their pictures.

I'd like to tell about..... and

They have a lot in common. Firstly..... Secondly... Finally...

I believe that they deserve to be called the great personalities of their countries.

Tahsil va natijalar. Muloqot mashqlaridan foydalanish texnologiyasi turli janrdagi matnlar uchun universaldir. Ma'lumki, ko'plab talabalab sarguzashtli hikoyalarni o'qishni yaxshi ko'radilar. Hikoyalarni o'qish davomida ularda juda ko'p savollar, his-tuy'ular tugiladi eng muhimi keyin yana o'qish istagi paydo bo'ladi.

Shuning uchun o'quv-uslubiy tarkibidagi badiiy matnlar bilan ishslash bo'yicha topshiriqlar variantlarini taklif qilamiz.

Shunday qilib, darsning elementlarini Artur Konan Doylning "The Lost World" (Yo'qotilgan dunyo) romanidan pargasida ko'rib chiqaylik.
